EDUCATION

Bachelor of Technology (B.Tech) – Electronic and Communication Engineering | CGPA: 7.00/10.00

Jawaharlal Nehru University, New Delhi | 2024 - 2028 (Expected)

TECHNICAL SKILLS

Programming : Java, Python, JavaScript

Frontend : HTML5, CSS3, React.js, Responsive Web Design

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating System

Programming Tools: Git, GitHub, VS Code, IntelliJ IDEA, Vercel, Wix

PROJECTS

Music Gallery | HTML, CSS, JavaScript

- Developed a music gallery interface with an organized layout for browsing and exploring music.
- Implemented interactive frontend elements using JavaScript to enhance user interaction.
- Designed a visually appealing interface with responsive styling.

Image Gallery | HTML, CSS, JavaScript

- Built an interactive image gallery to display images in a structured and visually appealing layout.
- Implemented image browsing functionality using JavaScript.
- Applied responsive design principles to ensure usability across different screen sizes..

Calculator Web Application | HTML, CSS, JavaScript

- Developed a browser-based calculator supporting basic arithmetic operations.
- Implemented calculation logic and interactive functionality using JavaScript.
- Designed a clean and responsive interface for an intuitive user experience.

EXPERIENCE

Business Development Associate – Contract-Based | SPRIX Manabie Education

- Completed initial training and participated in on-site client acquisition and lead generation activities.
- Engaged with prospective clients through field-based outreach and supported business development activities.
- Gained practical exposure to client interaction, lead generation, and business outreach operations.

VOLUNTEERING AND EVENT EXPERIENCE

Volunteer – HackJNU | Jawaharlal Nehru University | 2025

- Contributed to the organisation and execution of a university-level hackathon.
- Assisted with event coordination and participant-related activities.

Volunteer – Inter-College Pitching Competition | School of Engineering, JNU | 2025

- Assisted in coordinating event activities and supporting the execution of the inter-college pitching competition.
- Supported event operations and participant engagement.

PROBLEM SOLVING

- Practicing Data Structures and Algorithms using Java.
- Strengthening problem-solving skills through coding practice and algorithmic challenges.
- Exploring fundamental programming concepts, algorithmic techniques, and Object-Oriented Programming.
